**Amendment to Budget Bill Item 3100-001-0267, and Addition of Item 3100-490, Support,
California Science Center**

Exposition Park Master Plan—It is requested that Item 3100-001-0267 be increased by \$150,000 Exposition Park Improvement Fund and reimbursements be increased by \$225,000. This increase in funding represents the state's portion and funding from Exposition Park tenants for consulting services to develop a new Master Plan for Exposition Park (Master Plan). Changes in and around Exposition Park, including new long-term tenants, the Metro Line, and major development projects have created a need for a new Master Plan. The new Master Plan will include an inventory of existing facilities and an index of use of those facilities, a land management plan, the identification of viable projects, and any necessary environmental review.

Technical Adjustment—It is requested that Item 3100-490 be added to reappropriate up to \$275,000 from Item 3100-001-0267 and up to \$2 million from Item 3100-001-0001 for deferred maintenance funding included in the 2016 Budget Act (see Attachment 1). The deferred maintenance funding is for restroom and water fountain renovations and for improvements to exhibit and art storage facilities at the California African American Museum.

The effect of my requested action is reflected on the attachment.

Amendment to Budget Bill Items 3125-301-0005 and 3125-301-0890, and Addition of Items 3125-301-0262, 3125-301-0286, and 3125-495, Capital Outlay, California Tahoe Conservancy

South Tahoe Greenway Shared Use Trail Phase 1B Project (Issue 301)—It is requested that Item 3125-301-0890 be decreased in the amount of \$250,000 and reimbursements be added in the amount of \$250,000 to reflect a fund shift from federal funds to reimbursement authority. This technical adjustment is necessary to properly reflect that this project is being funded through a grant from the Active Transportation Program rather than federal funds.

Conceptual Feasibility Planning (Issue 302)—It is requested that Item 3125-301-0005 be decreased by \$18,000 to reflect funding no longer needed for this project.

Tahoe Pines Campground Restoration Project (Issue 300)—It is requested that Item 3125-301-0262 be added in the amount of \$323,000 and Item 3125-301-0286 be added in the amount of \$200,000 for the construction phase of this project. In addition, it is requested that Item 3125-495 be added to reflect the reversion of unencumbered Habitat Conservation Fund and Lake Tahoe Conservancy Account funds from which this project was being funded. These actions are necessary because the start of working drawings was delayed because of issues concerning data from the land survey. The issue has since been resolved (see Attachment 1).

The effect of my requested action is reflected on the attachment.

Amendment to Budget Bill Item 3340-301-0660, Capital Outlay, California Conservation Corps

Tahoe Base Center: Equipment Storage Relocation (Issue 353)—It is requested that Item 3340-301-0660 be increased by \$1,999,000. Concurrently, the scoring of the partial reversion of the 2015 Budget Act appropriation for this project will increase by \$1,730,000. Taken together, this represents an increase to total project costs of \$269,000. This action is necessary because there have been delays related to completion of the acquisition of this site because of real estate due diligence issues pertaining to easements on the site and obtaining an approved appraisal.

The 2017-18 Governor's Budget proposal for this project assumed acquisition would occur in fiscal year 2016-17. This action reflects acquisition being completed in 2017-18 and an increased estimate because of the extended project timeline. The net increased project cost between the original 2015 appropriation of \$2,510,000 and this proposal (\$4,038,000) is \$1,528,000.

The effect of my requested action is reflected on the attachment.

**Amendment to Budget Bill Item 3540-301-0660, and Addition of Item 3540-490,
Capital Outlay, Department of Forestry and Fire Protection**

Badger Forest Fire Station: Replace Facility (Issue 351)—It is requested that provisional language be added to Item 3540-301-0660 (see Attachment 1) that was omitted in the Governor's Budget. Provision 1 aligns the encumbrance expiration date of the project with the project's other chaptered schedules. Provisions 2 through 4 are standard provisions related to the issuance of lease revenue bond funds for state projects.

Mount Bullion Conservation Camp: Emergency Sewer System Replacement (Issue 350)—

It is requested that Item 3540-490 be added to reappropriate the design and construction phases of this project. Because of delays in obtaining necessary regulatory approvals, preliminary plans have taken longer than anticipated; therefore, the preliminary plans and working drawings phases will not be complete by the time the appropriation expires on June 30, 2017. The project is expected to be complete by June 2018. Reappropriation will allow this project to continue without further delay (see Attachment 2).

Amendment to Budget Bill Item 3560-001-0001, Support, State Lands Commission

Legal Representation—It is requested that Item 3560-001-0001 be increased by \$580,000 to provide for out-of-state legal representation on behalf of the State Lands Commission in the bankruptcy case for Rincon Island Limited Partnership (Rincon). Rincon has three state oil and gas leases with the Commission in Ventura County. The cost to abandon the wells that Rincon leases is estimated to be between \$30 and \$50 million. Rincon filed for Chapter 11 bankruptcy in Texas to stay the Commission's termination of Rincon's leases in 2016 for regulatory violations. The Texas court requires in-person attendance for all hearings and this funding is necessary to retain the experienced legal counsel in Texas to protect the state's interests.

Addition of Budget Bill Item 3600-001-8110, Support, Department of Fish and Wildlife

Open and Transparent Water Data Act—It is requested that Item 3600-001-8110 be added in the amount of \$150,000 Water Data Administration Fund to support 1 existing position at the Department of Fish and Wildlife. This request supports the consolidation of fish data and the required consultation with the Department of Water Resources (DWR) in the implementation of Chapter 506, Statutes of 2016 (AB 1755), the Open and Transparent Water Data Act. This request is part of a combined proposal with the State Water Resources Control Board and DWR.

The effect of my requested action is reflected on the attachment.

If you have any questions or need additional information regarding this matter, please call Amanda Martin, Principal Program Budget Analyst, at (916) 324-0043.

Amendment to Budget Bill Item 3640-001-6083, Support, Wildlife Conservation Board

Proposition 1 Position Authority—It is requested that Item 3640-001-6083 be amended by adding 2 positions. The Wildlife Conservation Board received ongoing funding and two-year limited-term position authority for a Senior Environmental Scientist and an Environmental Scientist. The positions are scheduled to expire June 30, 2017 and the Board is requesting the positions be converted into permanent positions to continue grant administration, project management, and data collection and reporting for its Proposition 1 Stream Flow Enhancement grant program.

**Amendment to Budget Bill Items 3790-101-3001, 3790-490, and Reimbursements, and
Addition of Item 3790-492, Local Assistance, Department of Parks and Recreation**

Public Beach Restoration—It is requested that Item 3790-101-3001 be amended to add \$156,000 reimbursement authority for local beach restoration projects (see Attachment 1). This authority will allow the Department of Parks and Recreation to receive funds from local project partners for beach restoration and replenishment projects.

Reappropriation—It is requested that Item 3790-490 be amended and Item 3790-492 be added to reappropriate funds from various local assistance appropriations to support the continuation of local projects and grant programs, including beach replenishment, land conservation, and protection of threatened species (see Attachments 2 and 3).

**Amendment to Budget Bill Items 3790-301-0952, 3790-301-6051, and Reimbursements,
and Addition of Item 3790-491, Capital Outlay, Department of Parks and Recreation**

Candlestick Point State Recreation Area (SRA): Yosemite Slough (North)—Public Use Improvements (Issue 302)—It is requested that Item 3790-301-0952 be increased by \$4,125,000 and reimbursements be decreased by the same amount to reflect a fund shift from reimbursement authority to the State Park Contingent Fund. This is necessary to reflect that the project will be funded from funds already received rather than on a reimbursement basis.

Torrey Pines State Natural Reserve (SNR): Sewer and Utility Modernization (Issue 301)—It is requested that Item 3790-301-6051 be increased by \$1,259,000 to provide additional funding for the working drawings and construction phases of the Torrey Pines SNR: Sewer and Utility Modernization project. Increased costs are attributed to the use of alternative construction techniques required to preserve the natural habitat. In addition, it is requested that Item 3790-491 be added to reappropriate the preliminary plans, working drawings, and construction phases of this project. The project is in preliminary plans and submittal for approval is anticipated in summer 2017. This reappropriation is necessary for the project to progress without delay (see Attachments 1 and 2).

Lake Oroville SRA: Bidwell Goldflat Campground (Issue 303)—It is also requested that Provision 1 of Item 3790-301-6051 be amended to remove reference to schedule 5. Preliminary plans for this project are expected to be complete by June 30, 2018; therefore extended availability for these funds is not needed (see Attachment 1).

Reappropriations (Issue 300)—It is further requested that Item 3790-491 also reappropriate funding for the following 19 projects (see Attachment 2).

0001—General Fund

- Angel Island State Park (SP): Immigration Station Hospital Rehabilitation project. The project is pending final approvals from the State Fire Marshal and the Division of State Architect. It is anticipated these approvals will be received. However, this reappropriation is being requested so the project can still proceed if these approvals are not received in a timely manner.

- Malakoff Diggins SHP: Solar Panel Generator project. Design is underway but might not be complete by June 30, 2017. In the case there are delays obtaining necessary permits and approvals, reappropriation is requested to prevent any further delay to this project.

0005—Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Fund

- Malibu Creek SP: Restore Sepulveda Adobe. The project is in construction and project completion is anticipated for fall 2017. Due to this project being bond funded, cash is not transferred until expenditure occurs. Reappropriation is requested for construction to be completed without further delay.
- San Elijo State Beach (SB): Replace Main Lifeguard Tower project. The project is in working drawings and is pending State Fire Marshal approval. It is anticipated these approvals will be received. However, this reappropriation is being requested so the project can still proceed if these approvals are not received in a timely manner.

0263—Off-Highway Vehicle Trust Fund

- Carnegie State Vehicular Recreation Area (SVRA): Road Reconstruction project. Reappropriation is necessary because the working drawings need to be modified to receive a permit from the Army Corps of Engineers. It is anticipated construction will commence in fall 2017. Reappropriation is requested to prevent any further delay to this project.
- Oceano Dunes SVRA: Visitor Center/Storage. The project is in construction and expected to be complete by fall 2017, after which work on interpretive services will commence. These funds are not yet encumbered. Reappropriation is requested so that funds are available for the project to progress without further delay.
- Oceano Dunes SVRA: Pismo SB Sediment Track-out Prevention project. The project is currently in preliminary plans and approval submittal is anticipated in spring 2017. Reappropriation is requested in the case there are delays in finalizing permits and/or approvals.
- Hollister Hills SVRA: Waterline Expansion project. The project is in preliminary plans and is in the midst of finalizing an encroachment permit. The project is expected to be completed by spring 2017. Reappropriation of working drawings and construction is requested in the case there are delays in finalizing the permit.
- Heber Dunes SVRA: Water System Upgrades. The project is in preliminary plans and is in the midst of obtaining a water permit from the Department of Health Care Services. Preliminary plans is expected to be complete by spring 2017. Reappropriation is requested in the case there are delays in obtaining the permit.

0516—Harbors and Watercraft Revolving Fund

- Angel Island SP: East Garrison Mooring Field project. The project is in preliminary plans, which is anticipated to be completed in summer 2017, after which working drawings and construction will begin. Reappropriation of working drawings and construction funds are requested to keep the project progressing without further delay.
- McArthur-Burney Falls Memorial SP: Ramp and Boarding Float Replacement project. The project is in preliminary plans and additional permitting requirements are necessary.

Completion of preliminary plans has been delayed because additional permitting requirements were identified during the California Environmental Quality Act review process. Preliminary plans are now anticipated to be completed by fall 2017. Construction is expected to begin in winter 2017. Reappropriation of construction funds is requested so the project can transition into future phases without further delay.

0890—Federal Trust Fund

- South Yuba River SP: Historic Covered Bridge project (also see issue in Fund 6051 below). The project is in preliminary plans and continues to be on schedule, with anticipated approval in summer 2017. Reappropriation is requested so that funds are available for working drawings and construction to keep the project progressing without delay.

6029—California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund

- California Indian Museum. This renovation project has yet to begin due to delays in the acquisition process. Acquisition is expected to be completed by summer 2017. Reappropriation is requested so the project can begin without further delay.

6051—Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006

- Marshall Gold Discovery Park SHP: Park Improvements. The project is in construction and project completion is anticipated in winter 2017. Reappropriation is requested so that funds are available to complete the construction phase of the project without further delay.
- Fort Ord Dunes SP: New Campground and Beach Access project. The project is in working drawings and delayed due to the coastal permitting process. The project team is working with the Coastal Commission on obtaining the required coastal permit approval. Reappropriation is requested to keep the project progressing without further delay.
- Old Town San Diego SHP: Building Demolition and Immediate Public Use Facilities project. The project is in working drawings and construction is expected to commence in summer 2017. Reappropriation is requested keep the project progressing without delay.
- MacKerricher SP: Replace Water Treatment System project. The design of this project is delayed due to environmental issues and exploratory well drillings. Preliminary plans are anticipated to be finalized and submitted for approval in summer 2017. Reappropriation is requested to keep the project progressing without further delay.
- South Yuba River SP: Historic Covered Bridge project (also see issue in Fund 0890 above). The project is in preliminary plans and continues to be on schedule, with anticipated approval in summer 2017. Reappropriation is requested so that funds are available for working drawings and construction to keep the project progressing without delay.
- Old Sacramento SHP: Boiler Shop Renovation. This renovation project has yet to begin due to delays in the acquisition process. Acquisition is expected to be completed by summer 2017. Reappropriation is requested so the project can begin without further delay.

The effect of my requested action is reflected on the attachment.

Addition of Budget Bill Items 3810-101-6051 and 3810-490, Local Assistance and Capital Outlay, Santa Monica Mountains Conservancy

Proposition 84—It is requested that Item 3810-101-6051 be added in the amount of \$963,000 (see Attachment 1).

Technical Adjustment—It is requested that Item 3810-490 be added to reappropriate the unencumbered balances of Items 3810-301-6029 and 3810-301-6031, Budget Act of 2012 (see Attachment 2).

All of these funds will be used for local assistance grants or capital outlay projects in the Santa Monica Mountains Zone and the Rim Valley Corridor. Additionally, the Santa Monica Mountains Conservancy is also requesting language for both items, to allow the funds to be available for encumbrance and expenditure until June 30, 2020.

The effect of my requested action is reflected on the attachment.

**Addition of Budget Bill Item 3855-001-0890, Support, and Item 3855-101-6051,
Local Assistance, Sierra Nevada Conservancy**

Federal Funds—It is requested that Item 3855-001-0890 be added in the amount of \$30,000 (see Attachment 1). This funding represents partner agreement funding from the United States Forest Service and will be used for activities consistent with the Sierra Nevada Watershed Improvement Program.

Proposition 84—It is requested that Item 3855-101-6051 be added in the amount of \$285,000 to provide funding for watershed protection local assistance grants (see Attachment 2). It is also requested that provisional language be added to extend the encumbrance period of the funds until June 30, 2020.

The effect of my requested action is reflected on the attachment.

**Amendment to, Addition of, and Elimination of Various Budget Bill Items, Support,
Department of Water Resources**

Technical Adjustments—It is requested that Item 3860-001-6007 be eliminated to reflect the lack of availability of bond funds in the Urban Stream Restoration Subaccount. It is also requested that Item 3860-001-3057 be decreased by \$24,000 to reflect updated calculations for the Division of Safety of Dams.

Proposition 13 San Joaquin River Fish Population Enhancement—It is requested that Item 3860-001-6026 be increased by \$3,730,000 to support work to improve fish populations in the San Joaquin River Watershed. The work will include construction of facilities such as physical habitat structures that have been modified to provide water delivery or flood water routing, and may involve the bed, banks, and floodways of the San Joaquin River and its tributaries.

Open and Transparent Water Data Act (AB 1755)—It is requested that Item 3860-001-8110 be added in the amount of \$2,490,000 to support 5 existing positions and implementation of the Open and Transparent Water Data Act, and that provisional language be included to require Department of Technology oversight (see Attachment 1). This expenditure authority will allow donations to the Water Data Administration Fund for work including the development and management of a statewide water data platform under a set schedule with prescribed protocols. This request is part of a combined proposal with the State Water Resources Control Board and the Department of Fish and Wildlife.

Reappropriations—It is requested that Item 3860-490 be added to reappropriate funds from various support appropriations from prior years with funding available for encumbrance or expenditure through June 30, 2019 (see Attachment 2). A number of water-related programs have been delayed for various reasons, including California Environmental Quality Act timelines, statutory and regulation changes, extended contracting processes, or state and federal permitting delays. The reappropriations will provide additional time for these projects to be completed.

Extensions of Liquidation—It is requested that Item 3860-491 be added to extend the liquidation period to June 30, 2019, for support projects previously encumbered under various

appropriations in prior years (see Attachment 3). This extension will provide additional time for final accounting and payments to be made on completed, or soon to be completed, projects.

Reversions—It is requested that Item 3860-496 be added to revert unexpended bond funds from various water-related programs and projects to prevent over-allocation of bond funds (see Attachment 4).

The effect of my requested action is reflected on the attachment.

If you have any questions or need additional information regarding this matter, please call Amanda Martin, Principal Program Budget Analyst, at (916) 324-0043.
